| Comments: | The text itself is fine, but here it is obviously not for the User so we should delete it or rename to something that will tell a User some info about the pictures |
| Expected result: | Images have no text |
| Actual result: | Every image has text |
| Severity: | Low |
| Sprint: | Sprint 3 |
| Rank: | 0 i0002v: |

Description

Steps to reproduce: 1. Open the website <https://www.headhunterhairstyling.com/>
2. Through the Header open the Gallery
3. Click on any image to zoom it
2. Through the Header open Services
3. Scroll down to the Carousel "Products"

[BEET-21] The exit button for zoomed images in the Gallery is too small

| Comments: | It's not really a bug, more as something to improve, but it may be really irritating for a Customer, especially because nowadays the most often way to quit such a zoom is to simply click outside an image, ignoring the cross. And here if you don't click <i>exactly</i> on the cross you will turn Carousel continuously. |
| Expected result: | Clicking outside an image to return to the Gallery |
| Actual result: | Clicking exactly on the cross, not a pixel around it |
| Severity: | Low |
| Sprint: | Sprint 3 |
| Rank: | 0 j00033: |

Description

Steps to reproduce: 1. Through the Headliner open Gallery
2. Click on any picture in the Gallery to zoom it
3. Click on the cross on the top right corner to exit zoom and return to the Gallery
